

Name: _____

Directions: Log into your account on dash.ga.co and walk through **Project #3, Part 1: Position images & text** while answering the questions below.

Part 1: Position Images and Text

1. On **slide 5**, what CSS styles are being applied to the project page? _____

2. A `<div>` tag is *non-semantic* which means... _____

3. How will adding the `<div>` tags in **slide 13** save us time when adding CSS styles? _____

4. What does "px" stand for in `height: 200px`? _____

5. What does "tiling" mean? _____

Hint: For **slide 22**, google "background-size" and choose one of the top 2 sites to read about the different possible *values*.

6. Label the **attribute** and the **value** in this code.

```
<tag class="name">
```

7. In CSS, how are class names different than tag names? _____

8. On **slide 38**, the `div` and `class` "disagree." Explain why CSS has chosen not to display the first image for each `div`.

9. Why is the background url deleted on **slide 41**? _____

10. What does `line-height` do? _____

11. What did you have to add to the `div` CSS to position the paragraphs to the bottom of each div?

12. How do you write a comment in CSS? _____

How do you write a comment in HTML? _____

Hint: Click on a line of HTML in the code, then press `ctrl + /`.

13. **Summary:** What skills did you use and what are your thoughts on this project?
